Date

The following two (2) questions was asked:

1. Is the town currently using a third-party sites for on-line payments, e-government transactions such as on-line permits, on-line forms and applications and variety of other activities?
 - A. The Town currently uses third party sites for these functions, dependent on the various department's needs. We would be open to other options, but in many cases the third party sites are unique to the services we need and are sufficient at this time.
2. The site must be able to run meeting videos, short PSA's and informational videos in a format the user would be able to fast forward, rewind or pause. Is there already a player preference, or would you want us to suggest a player?
 - A. We want the proposer's opinion on this issue.
