

# **BOARD WORK SESSION**

*This is a tentative agenda and can be modified at any time prior to the meeting. No formal vote will be taken by the Board of Mayor and Aldermen during the work session.*

## **WORK SESSION WILL BE HELD IN THE ADMINISTRATION CONFERENCE ROOM**

**November 9, 2015**

**5:15 - 5:30 Infrastructure improvements (sewer) related to Orgill relocation to Houston Levee Road** – Currently the site where Orgill is relocating has no sewer available to serve them. A sewer outfall line will need to be constructed along the east side of Houston Levee Road to provide service to the site.

Staff is asking for direction from the BMA regarding whether the Town wants to design and construct sewer outfall to the Orgill site.

Staff: Dale Perryman, Town Engineer

**5:30 - 5:50 Infrastructure improvements related to New High School construction** – The existing roads, sewer and water are not adequately sized to handle a new high school. With the opening of the school in the next two years, improvements will need to be made and with a tight design and construction schedule, the Town needs to move forward with these as quickly as possible.

This item is for informational purposes only, however, there is a design contract for infrastructure improvements on the agenda for the meeting following the work session. In order to keep the design on schedule, this contract will need to be approved by the BMA and the CIP will need to be amended for these projects.

Staff: Dale Perryman, Town Engineer
